### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The variation is to add waste codes, revise permit area and amend the limits of activity table and consolidate waste types. In doing so the fire prevention conditions will also be added to the existing permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
